

FALL 2025

FIELD TRIPS

Join us this season for educational experiences throughout the Park. \$200 per program; fee waivers available for Title I schools.

During field trips, students will:

- Engage in hands-on STEM lessons focused on local wildlife, climate change, pollution and more.
- Conduct experiments to better understand the Hudson River ecosystem.
- Explore Hudson River Park's vibrant environment above and below the River's surface.

FIELD TRIP HIGHLIGHTS

September - October

Wetlab Wildlife

Grades K-12

Meet Hudson River wildlife face-to-face in the Park's unique research aquarium.

Salt Marsh Science

Grades 4-12

Explore our diverse coastal ecosystem to learn about coastline resiliency and green infrastructure.

Climate & Our Coast

Grades 4-12

Investigate the impacts of climate change on NYC's shorelines through a hands-on engineering challenge.

Life in the Hudson

Grades K-5

Learn about anatomy, adaptations and biodiversity through games and creative activities.
